THIS ONE ITEM IS ONLY AVAILABLE FOR FALL SHIPMENT. 25% of this block is allotted for Fall shipment; the remainder will be transplanted to grow on to 9 to 12 in. and 12 to 18 in. sizes.

All Colorado Blue Spruce sold by us are grown in our own Nursery from top quality seed from sources proven for good color.

COLORADO BLUE SPRUCE 3-1, 6 to 12 ins.

This item we first offered two years ago on a trial basis in limited quantity. Orders ran way beyond our inventory.

Because of that demand and our improved facilities to grow them we now make this four year old transplanted stock available in sufficient quantity to supply your requirements.

These are grown from our top grade three year seedlings, lined out with proper space, fertilizer and care allotted to each tree to produce a heavy root and stem with little additional top development.

It makes a vigorous plant for further growing and at a very favorably price in these days of soaring production costs.

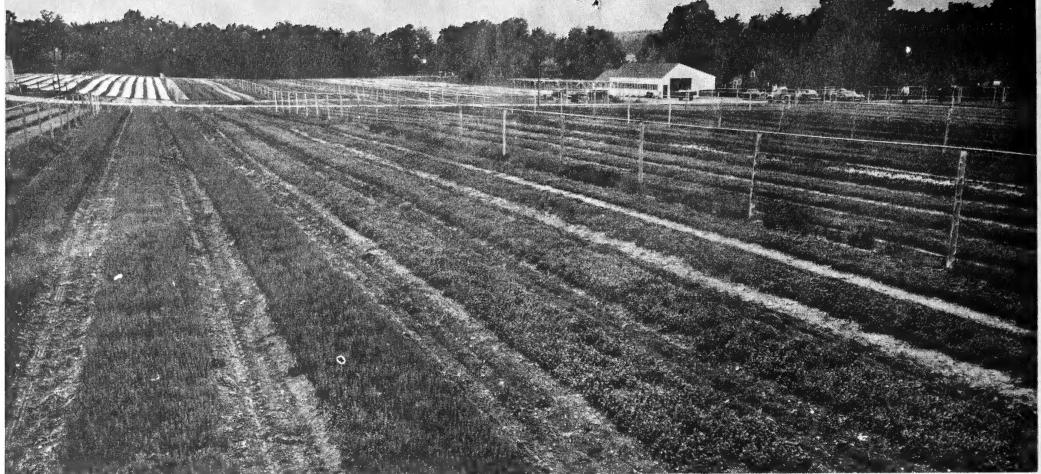

COLORADO BLUE SPRUCE 3-0, 5 to 10 ins.

Again we are happily in a position to furnish this stock in sufficient volume to supply your needs at a favorable price and on any reasonable delivery schedule. The latter being so vital to any Nursery operation.

This stock is taller and more heavily branched than any previous year with a proportionate root system and good average color.

Truck delivery can be arranged on any order large enough to warrant it.
